Guide to the Leslie O. Merrill Photograph Collection

MS 796

CSRM Library & Archives

California State Railroad Museum
Sacramento, California

Mr. Leslie O. Merrill (1920-2009) was a life-long collector of streamline railroad materials. His interest began at age 14, when the new "Pioneer Zephyr" streamliner train passed through his hometown of Syracuse, New York, in 1934. Professionally, Merrill was a director of the San Mateo County Historical Association and Museum for several years in the 1960s-1970s. He died in 2009 in Santa Barbara, California.

The Leslie O. Merrill Photograph Collection includes negatives and contact sheets. Each 8 x 10 sheet shows 12 photos made directly from the negatives. On a photocopy page following each contact print sheet is a description of what each photo is. Also written on the back of each contact print is the photo number of each photo.

The first half of the album shows streamliners of the Chicago, Burlington &amp; Quincy Railroad including "California Zephyr", "Denver Zephyr", "Twin Cities Zephyr", "Silver Streak Zephyr", "Sam Houston Zephyr", "Mark Twain Zephyr", "General Pershing Zephyr", "Texas Zephyr", "Nebraska Zephyr", "Burlington Zephyr", "Pioneer Zephyr", and the "Zephyr Rocket".

In the middle of this album is a small group of streamliner photos from the Florida East Coast Railway.

The final portion of the album shows streamliners of the Atchison, Topeka and Santa Fe Railway which include: "The Golden Gate", "The Chief", "The Super Chief", "The San Francisco Chief", "The San Diegan", "The El Capitan", and "The Kansas Cityan".

The black and white and color negatives from this collection have been housed in the CSRM Negative Collection and given a CSRM Negative number. These negatives are identified by the CSRM number that has been written on the verso of each contact sheet. Each contact sheet has a corresponding photocopied sheet that has been annotated with additional information about the image. The corresponding negatives can be found in the CSRM online catalog in the Leslie O. Merrill Collection as well as searching by the negative number.
